Repair case in 4 procedures performed by Dr. Feriduni

Patient (30) with FUE ex domo in 2021

Treatment plan

- Extraction of wrong-placed, -sized, -angulated and -directed FU
- Reconstruction hairline and reimplantation donor

Performed procedures

1. February 17, 2023
   Extraction hairline 678 FU and extraction donor area 208 FU
   886 FU reimplanted in donor area

2. June 8, 2023 *(4 months later)*
   Extraction hairline
   422 FU dissection of which 171 FU reimplanted in donor area

3. November 10, 2023 *(5 months later)*
   Extraction hairline
   167 FU dissection of which 123 FU reimplanted in donor area

4. March 4, 2024 *(4 months later)*
   FUE reconstruction hairline
   600 single FU + 923 double FU = 1523 FU

Parallel incisions in custom-sized blades technique (Cutting Edge blades of 0,7 - 0,95 mm).
Extractions performed by WAW-system with a 0.85 - 0,95 mm serrated trumpet punch.

Partial microscopic preparation of the single follicular unit grafts.

Dr. Bijan Feriduni

FERIDUNI
HAIR CLINIC

1st consultation
Close-up frontal view:
wrong-placed, -sized, -angulated and -directed FU in the frontal hairline

1st consultation
Close-up 45° right and left side temporal view:
wrong-placed, -sized, -angulated and -directed FU in the temporal hairline

Step1

February, 2023

Extraction hairline 678 FU + donor area 208 FU
= 886 FU reimplanted in donor area

FERIDUNI
HAIR CLINIC

Preop ***wet hair***
Close-up frontal view:
wrong-placed, -sized, -angulated and -directed FU in the frontal hairline

Preop ***wet hair***
Close-up 45° right and left side temporal view:
wrong-placed, -sized, -angulated and -directed FU in the temporal hairline

Preoperative shaving of extraction areas
Close-up frontal view:
shaved wrong-placed, -sized, -angulated and -directed FU in the frontal hairline

Preoperative shaving of extraction areas
Close-up 45° right and left side temporal view:
shaved wrong-placed, -sized, -angulated and -directed FU in the temporal hairline

1 day postop after 1st extraction hairline
Close-up 45° left side view after extraction of a total of 886 FU

10 days postop after 1st extraction hairline

Donor area 10 days postop after 1st extraction hairline and reimplantation donor area

Donor area 10 days postop after 1st extraction hairline and reimplantation donor area

Step2

June, 2023

Extraction of 422 FU dissection of which 171 FU reimplanted in donor area

FERIDUNI
HAIR CLINIC

Preop 2nd step
Close-up frontal view after 1st extraction of 886 FU

Preop 2nd step
Overall view *after 1st extraction of 886 FU*

1 day postop after 2nd extraction hairline
Close-up frontal view after extraction of 422 FU

1 day postop after 2nd extraction hairline
Close-up 45° right and left side temporal view after extraction of 422 FU

Step3

November, 2023

Extraction of 167 FU dissection of which 123 FU reimplanted in donor area

FERIDUNI
HAIR CLINIC

Preop 3rd extraction hairline
Close-up frontal view after extraction of 1308 FU

Preop 3rd step
Close-up 45° right and left side temporal view after extraction of 1308 FU

Preop 3rd step
Close-up frontal view after 2 extractions of 1308 FU

Preop 3rd step
Overall view *after 2 extractions of 1308 FU*

1 day postop after 3rd extraction hairline
Close-up frontal view after extraction of 167 FU

1 day postop after 3rd extraction hairline

Step4

March, 2024

Reconstruction hairline in FUE with 600 single FU + 923 double FU = 1523 FU

FERIDUNI
HAIR CLINIC

Preop 4rth step: redesigning a natural hairline
Close-up frontal view new hairline design

Preop 3rd step
